EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Heckadon on 12/19/2005.

The application has been amended as follows:

Claim 1, last two line, change "does not require" to -- does not include --.

Claim 14, line 8, change "does not require" to -- does not include --.

Claim 30, last line, change "does not require" to -- does not include --.

Claim 32, last two line, change "does not require" to -- does not include --.

Claim 33, last two line, change "does not require" to -- does not include --.

Claim 36, line 12, change "does not require" to -- does not include --.

2. The following is an examiner's statement of reasons for allowance: no prior art teaches or fairly suggests using cantilever apparatus comprising cantilever arrays with fingers surrounded by frame finger where the cantilever finger in the array block comprises the sensing materials interacting with a predetermined substance whereby interaction would cause the diffraction grating to different light and thereby provide a change in a diffraction pattern or color of the

diffracted light, wherein the apparatus does not include an external source of electrical power for the cantilever palette. The closest prior art is the Quate et al. (US 6436647) where Quate et al. teach an apparatus of cantilever for detection of analyte in a sample. However, Quate et al. do not disclose the mechanical arrangement of frame cantilevers and fingers, and Quate et al. uses external power to detect cantilever bending instead of diffraction grating pattern change which does not require external power in this invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
